

## Explore Car Wash

### Think about Car Wash:

1. How do cars get dirty?
2. What steps occur inside the automatic car wash to get a car clean?
3. What might happen if you skipped one of those steps?
4. What things would you need to wash a car by hand?
5. What kind of cars/vehicles might not be able to go through an automatic car wash?

### Extensions:

1. Wash a dirty car by hand. Which part was hardest? Which part was most fun?
2. Make a pretend car wash for play vehicles or riding toys and bikes - use blocks, boxes, or other materials.
3. Have fun drawing a picture of the dirtiest car you can imagine. Dictate or write a story about it.
