

Explore Snowman

Think About Snowman:

1. Can you list the steps it takes to make a snowman?
2. Do you have to take these steps? Are there other ways to make one?
3. What different items could be used to make the eyes? The nose? The mouth? Other features?
4. Can you think of ways to give a snowman hair?
5. What else is fun to make or do in the snow?

Extensions:

1. If the snow is too powdery, bring it indoors in a large, shallow tub or pan. When it melts enough to pack, make mini-snow people.
2. Use modeling dough or clay to make a pretend snowman. Draw the features with toothpicks or stick in tiny objects.
3. On a snowy day (with packing snow) see if you can make a snow dog, cat or other animal.
