

## Explore Numbers

### Think About Numbers:

1. How are these numbers being used - to count, measure, label, or position (ordinal)? For something else?
2. Why is it important to think about how numbers are being used when you see them?
3. What may be the reason we use numbers to label vs. using words (such as on sports jerseys)?
4. Which is the biggest number in the book?
5. How do numbers around us help us and/or keep us safe? (go through each page & discuss 😊)

### Extensions:

1. Go for a numbers walk and notice every number you see, think about how it is being used.
2. Make a list of all the ways your family uses numbers at your house. Share and compare.
3. Create a new game that uses numbers or add numbers to a game you already know how to play that doesn't use numbers.
